---

Dear SASPEN members

You will receive a letter in the post shortly with the annual renewal forms attached. As soon as we receive your subscription fees, you will receive information on how to register on the website and obtain your password. This password-protected website access system will only be available to fully paid-up SASPEN members.

Also included in the mail shot will be nomination forms for new council members. Please participate in this process by actively nominating people that you would like to see on the Council. The election process will take place via the website for those with access, or you will be able to cast postal votes.

In September, we participated at the ESPEN Congress in Istanbul, Turkey, where SASPEN hosted our very first parallel session. The event was well attended and it opened the door for us for future collaborations with our European sister societies. One of the parallel sessions of the congress on lipid emulsions can be downloaded from the B Braun website at <http://www.nutrition-partner.com>. Select the ESPEN Congress 2006 icon. You can also order a CD-Rom of the session free of charge from the website.

Kind regards

**Renée Blaauw**

*President, SASPEN*
